Commonwealth Air Training Plan Has Been Drastically Curtailed To Meet Conditions

THE most of airplane matters in Canadian skies was reduced to a mere shadow plan in 1944 as the big British Commonwealth Air Training Plan that made the early days of the "war of democracy" was drastically curtailed and partial R.C.A.F. demobilization plan established.

The plan will not be extended after its expiry date, March 31, 1945, when the shadow plan will be installed.

Mostly because of a shortage of aircraft and emergency landing fields were closed.

Invented By Accident

English Chemist told Idea For Life
June 1945, pp. 127-128.

Nearly 100 years ago Lincoln was discovered, or more properly invented, by accident.

An English chemist, Frederick Walton, was engaged in experiments to improve the floor coverings of those days. One day he observed, mindfully lifted a piece of dry paper from the top of an open can, and at once he realized that this human

Announcing the curtailment program in November, Maj. Power said the air plan was aimed at gaining air supremacy in every theatre of war and he added, "This purpose has been accomplished." When the plan ends March 31, a total of 224,296 trained aircrew will have graduated from Canadian flying schools.

It explained the need for education to be based on a huge surplus of airship built up by a plan that was gauged on higher casualties than were actually suffered and the unpredictable course of the war.

Meanwhile an air mission returned from a study of Pacific war theatre conditions and it is widely reported that, between 15 and 20 of the force's

45 overseas squadrons will be sent against Japan on a re-voluntary basis when the war in Europe is over. Other squadrons—possibly made up of R.C.A.F. men in the R.A.F.—may stay in Europe to co-operate with occupational forces.

One feature of the home organization was the establishment of a

Daily care should consist of disinfecting with an untreated mop.

Recent Find Has Been Made In Vermilion Area

Miner Minister N.E. Tanner, Alberta, said a report in the demerit for development purposes has been caused by the recent discovery of a 40-foot deep salt bed in the Vermilion area. Keen interest was shown in the salt possibilities of the area, he said.

The year-end found hundreds of men being demobilized, many of them returning from overseas operational tours. Many of the returning flying personnel are taking over administrative jobs as they come from non-flying men released from the service, as fewer and fewer training craft take the air.

Agriculture Department officials said that next fall Canada hopes to provide the United Kingdom with 180 million fresh eggs in exchange for the same amount when Canadians themselves were drawing on storage stocks.

They estimated that surplus 1944 fall production to be bought by the special products board will be more

These increases have made Canadian consumers independent of foreign eggs and none have been stored for domestic consumption for four years.

ODDNESS

Price Control And Rationing Information

It has been noted that the operation of the rationing system is being carried out in a very efficient manner. The public is being asked to cooperate in the rationing of food and other necessities. The government is doing its best to ensure that everyone has access to the goods they need.

Naval Power

ALBERTA'S BEACON LIGHT, CONSTANTLY being changed by the rapid pace of scientific and military developments, many are asking the question: "What is the future of the navy?" The answer is that the navy is still a powerful force, and it is being re-equipped with the latest technology. The Royal Canadian Navy is playing a vital role in the defense of the country.

Has Taken Full Share Of Task

It is a full share of the heavy and difficult work which the Allied Forces have been called upon to perform. In taking on this task, the Canadian forces have shown their commitment to the Allied cause. They have fought bravely and sacrificed for the freedom of the world.

Allied Nations Suffered Losses

This information concerning the growth of Canada's Merchant Navy was given recently by the Minister of Transport. He stated that the Canadian Merchant Navy has grown from 10 ships and less than 2,000 men at the beginning of the war to more than 100 ships and 50,000 men today. This is a testament to the hard work and dedication of the Canadian Merchant Navy.

American Shipping Makes Good Subject

May not Port of Montreal Visit To Britain. The British government has announced that it will allow American ships to visit the port of Montreal. This is a significant step towards improving relations between the United States and the United Kingdom. It will also benefit the shipping industry in the region.

Indians Were Scared

Contrived Hearsay. The Indians were scared by the rumors that were spread about the government's plans to take over their land. They were told that the government was going to take away their homes and their way of life. This was a cruel and unjust lie, and the government should be held accountable for its actions.

Radio Location

Helped Royal Navy In Crossing. The use of radio location has been instrumental in helping the Royal Navy to cross the Atlantic Ocean. This technology has allowed the navy to track ships and submarines, and it has been a key factor in the success of many naval operations.

Sniffly Nostrils

There are 20 brain nerves in the human body, and the olfactory nerve is the one that is responsible for our sense of smell. It is a very important nerve, and it is located in the nose. If it is damaged, a person will lose their sense of smell, which can be a very serious problem.

Look To Orient

Canadian troops may ultimately find a large market. The Canadian government is looking for new markets for its goods and services. The Orient, particularly China and India, is seen as a potential market for Canadian products. The government is working to establish trade relations with these countries.

Watch Out For Cold!

Watch Out For Cold! The weather is cold, and it is important to take precautions to avoid getting sick. Wear your coat, hat, and gloves, and keep your hands warm. It is also important to eat a healthy diet and get plenty of rest to keep your immune system strong.

SEMPER PARATI'S FIRST ANNUAL MEETING

Next Saturday, February 17th, the first annual Sempar Parati meeting of the re-organized U. of N. 384 will be held in the K. P. Hall, Sedgwick. Besides the seven Councilors and staff of Secretaries and office assistants, it is expected, and naturally so, considering the large area involved, that the largest crowd of ratemakers ever to attend such a meeting will be present. This is the first year of life of the new set-up and there is no doubt that many things of various magnitude have not yet been thoroughly ministered to everyone's satisfactions. If such is the case, a large crowd is assured, for the most sure and certain method of getting people to a meeting is to give them something to "fix" about. However, from what we have been able to learn, the present Council has done a pretty thorough and satisfactory job, so there shouldn't be much kicking.

Unsubject which is almost certain to receive considerable discussion is the erection of the new Municipal Office, work on which, we are informed, will be resumed early this spring, on Railroad St., North-west, the spot selected for the new building.

Eating places in town will no doubt be busy to the very limit, as well as out-of-town restaurants. It might be well for such places to make preparations in advance to meet the occasion.

One subject which the meeting might well give attention to is the problem of weeds, which all but "taken over" this part of the country. We know this problem has been discussed many times, but the situation has been shored, but we wonder if enough serious consideration has been given to the magnitude of the situation. We all know to what extent the farmers are being rubbed by the weed pest, but most of us are unconvinced by carrying diseases. It is not only the "dirty" farmer (nothing personal) who suffers, but his "clean" neighbor as well. Perhaps the latter suffers the most, because he not only takes a monetary loss, but he also loses his respect and his friendship for his neighbor.

There is no one beating around the bush on this problem which concerns us all. The present method of weed control as it is carried on today, is a dismal failure, and something new must be evolved to counter the menace, and most men, if this country is not to be overtaken by agricultural disaster.

Our Weed Inspectors, as they function today, are not giving the service which officials in that position are expected to give. No, the fault is not their's - it is ours. We don't know just how much power the Weed Inspector has (there's a question about it by our elected Council), but we do know that they are not using what power they have to get to see that their orders are obeyed. Here again, as we usually do, we find social, personal and business reasons involved for not making these orders "stick".

Until farmers are told to eradicate the weeds they are responsible for, and then made to do that. Very thing, however, will be slow and painful. Farmers are human, and like the rest of us, they are not very pleasant just as much as possible. The time for "massive fighting" and "mass-culling" with the weed infestation, and the human race is to get off the land or call in the bulldoze and bulldoze and give the whole country back to them, re-claiming, "to you from fallen hands we thank the earth."

We extend a hearty welcome to the visitors at the annual meeting with the hope that much knowledge and satisfaction may be derived therefrom.

Patents are granted to inventors for their inventions. This is a way of protecting their rights and encouraging them to create new things. Patents are an important part of the legal system, and they play a key role in the development of new technology.

The Letter Box

The Community Press does not receive and cannot be held responsible for the views expressed by contributors. Mr. Editor: I am glad to see the very interesting article in a recent issue, with a full and complete description of the various types of weeds which are a menace to the farmer. The article was a very good one, and it was very timely. It is a shame that the government is not doing more to help the farmer in this regard. We need more money to be spent on weed control, and we need more people to be employed in this work.

Canada Has Been Supplying The West Indies With Horses For Their Mounted Police Work

O parody a favourite Gilbert and Sullivan ditty, "When constabulary duty is to be done the policeman's horse is quite a happy one" at least in the West India. The police horses there are Canadian and eager for work. When a mounted policeman is on duty in Trinidad he rides a Canadian horse. When a constabulary patrol makes its rounds in the Barbados a mounted or Canadian steed.

named in July 1944 when the Livestock Division of the Department of Production Service supervised the purchase and dispatch of a small shipment of horses to the Commissioner of Police Barbadoes.

For this recent shipment, the horses were selected in the breeding

Station at Brampton, Ontario. Each of the animals was stired by an imported Thoroughbred stallion and was not of a dam sired by a Canadian stallion. The 3 rows stand 15 hands, 13 hands and 12 hands, are 13, 12 and 11 inches in height, were of middle weight, hunter type, each weighing about 1,150 pounds.

Exports of Canadian horses to the British West Indies began in 1923 when the Government of Trinidad

Deciding to buy an experimental shipment for conestabulary work on the island, sent a representative of the conestabulary to Canada to select the horses and to accompany them to their destination. The representative made his selection from a considerable number of suitable horses which had been located by officials

Although the Canadian Red Cross is a vast organization for the relief of suffering humanity, it is only so big to the women in the cities, towns and communities. It is only so big to the women in the cities, towns and communities. It is only so big to the women in the cities, towns and communities.

THURSDAY, APRIL 10TH, 1943

LADIES AND GENTLEMEN: "THE PRESIDENT OF THE UNITED STATES IS DEAD!"

It is not the first time that the above announce-
ment has been flashed to the people of the United
States and there is the rest of the world, but it is
probably the first time in the history of the human
race that such an announcement has caused such ir-
rational shock and brought such grief and sorrow
to so many people. Franklin Delano Roosevelt is
dead and his remains have been interred in the
cathedral of the place he loved so dearly, Hyde Park.
The world has heard nothing of the past few days of
the greatness of the late President, as a statesman,
a humanitarian, a lover of freedom, a fighter for
democracy, and as a man who stood for justice in
the world, steadfastly upholding the rights of man to live
and work as he chose.

He probably reached the pinnacle of his achieve-
ments and respect during this time, the final and vic-
torious conclusion of which it has been devised him
on. But to some of us, his greatness and his noble at-
tributes as a man go beyond these things. His deep
love for mankind and his kindness and sympathy to
the physically afflicted and underprivileged brought
to him the unending devotion of thousands of young
sters who have been stricken with infantile Paralysis,
his himself painfully crippled since 1921, knew and
understood the suffering of others. His courage in
greatly increasing his aid and striving forward to
ever increasing greatness, won him the respect
of people in every land.

We in Canada, in the passing of a great inter-
nationally known figure, but more especially do we
mourn the loss of a truly great man. A man who even
in the midst of gigantic and bitter campaigns, could
find time and energy to help the wayward blind.
He is gone, but he has left his country and the
world much which will be an inspiration to countless
thousands.

COMPLACENCY MAY OVER-IDE SOUND JUDGMENT

The above is quite true, because most people mis-
take the dramatics that are induced or inaugurated
with a soft heart and a forgiving nature. Now, un-
der ordinary circumstances such a human quality is a
valuable talent to possess and would be viewed with
Divine favor, but there comes a time in the affairs of
men when complacency should be submerged and not
overridden by sound judgment.

Frankly, we are quite fed up with some of the com-
ments we hear over the air and read in our dailies,
from otherwise well-meaning people, advertising the
cause in language toward our Nazi "friends" who
have caused untold anguish and suffering in a way
of our Canadian brothers. Just now when victory over
the forces of greed and aggression is being won, it
is not good to hear the word "complacency" bandied
about as though the allied nations are barbarians.

The freedom-loving people the world over will
never be repaid, never be allowed to enjoy the very
hundreds of millions of Almighty God, and the fruits of
their own labors, until the forces of aggression (and
more particularly the German people) have been
taught completely and lastingly that overreliance
on the Divine and human rights of others, cannot
and never will be tolerated.

Our fighting men and those who are guiding their
actions, are human. Of this we are most certain.
Furthermore we know they are more human than the
men they are fighting. We know also that they will
never resort to the wholesale murder and execution
of innocent victims of the present struggle, that
forbid that they should do so.

However, we do, most sincerely hope that before
the bells of victory peal forth the final tidings of
"Peace on Earth, Goodwill Toward Men," the Ger-
man people have been so irreversibly beaten and con-
quered, and submerged in shame and disgrace, that never
again will they have the courage to plunge the world
into strife and grief.

Better to finish the job properly now than to have
to do it over again.

We know, quite as well as these preservers of com-
placency, that Hitler and a few of his henchmen live
at the root of the trouble, but, gentle readers, always
have in mind that Hitler didn't create all this with-
out plenty of help.

Little Strokes Fell Great Oaks

Time after time the axe must hit into the trunk before the mighty oak comes crashing down to earth. Your purchase of Victory Bonds, small though it may seem, when added to those bought by the thousands of other Canadians, will pull the vast total required to fund the war and begin the job of reconstruction.

No one must shrink his task. Only with the fullest effort of each individual will the new high objective for Canada's Eighth Victory Loan be reached.

Young Canadians Enthusie Over New Sports Coaching Idea

"Sports College" Has Strong Membership in West

In Last Week's issue, we mentioned that the young Canadians are enthusiastic over the new sports coaching idea. This enthusiasm is not only confined to the West, but is spreading rapidly throughout the entire country. The idea is to have a "Sports College" where young Canadians can receive instruction in various sports. This college is not a school, but a club, and its members are young people who are interested in sports. The college is open to all young people, and its members are encouraged to participate in all sports. The college is a great idea, and it is one that is sure to be successful. It is a great way to keep young people active and healthy, and it is a way to teach them the importance of sports. The college is a great idea, and it is one that is sure to be successful. Not just for breakfast—but for every meal

Three days Kellogg's cereals are more important than ever to Canadian diets. They're easy to digest, appetizing and filling. A satisfying main dish for breakfast, a welcome change for lunch, a delicious snack. Add flavor to left-overs too!

Winston Churchill

THE WAR IN EUROPE becomes a part of the past, certain possibilities extend ahead clearly when we recall that King and domestic struggle. To the people of the Allied nations, particularly to those of the British Empire, the figure of Winston Churchill will remain a symbol of the courage and determination which brought us to this victory. Long before it was generally realized that Nazi Germany was preparing to destroy the power of the world which it had created, Winston Churchill had been warning the British people of the danger that lay ahead. His warnings were not heeded at that time. But when Germany had conquered almost all of Europe, and an invasion of Britain appeared imminent, he was called upon to lead the government.

People Inspired By His Oratory

When Winston Churchill took office as Prime Minister of Great Britain, he was faced with the task of leading the British people through the darkest days of the war. His oratory inspired the British people to continue the war against Germany. He declared that Britain would continue to fight until she was victorious, and he called for the British people to stand firm. His words were a source of strength and courage to the British people, and they were a source of inspiration to the people of the Allied nations.

Leadership In World Affairs

Mr. Churchill's leadership in world affairs has been a source of inspiration to the people of the Allied nations. He has been a voice of courage and determination in the face of adversity. His leadership has been a source of strength and courage to the British people, and it has been a source of inspiration to the people of the Allied nations.

Kept in Caves

British air troops were kept in caves during the war. This was a source of inspiration to the British people, and it was a source of inspiration to the people of the Allied nations.

A Simple Solution

Children have the gift of adventure. They are full of energy and they are full of imagination. They are full of life and they are full of hope. They are full of the spirit of the Allied nations, and they are full of the spirit of the British Empire.

GENES OF THOUGHT

The genes of thought are the foundation of the human mind. They are the foundation of the human spirit, and they are the foundation of the human soul. They are the foundation of the human race, and they are the foundation of the human world.

Cleaning Blighted Areas

The cleaning of blighted areas is a task that requires the cooperation of the community. It is a task that requires the cooperation of the government, the business community, and the individual citizens. It is a task that requires the cooperation of the people of the Allied nations, and it is a task that requires the cooperation of the people of the British Empire.

Pat on the Back

Pat on the back is a phrase that is often used to describe a person who is being praised or encouraged. It is a phrase that is often used to describe a person who is being recognized for their achievements. It is a phrase that is often used to describe a person who is being rewarded for their efforts.

JOBS ASSURED BEFORE DEMOBILIZATION

A Square Deal for Veterans Assured by
Progressive Conservatives

The very first clause of the Progressive Conservative plans for the re-employment of Veterans, adopted at the National Convention of December, 1942, is as follows:

DEMILITARIZATION

In carrying out the demobilization of Canada's Armed Forces the primary consideration should be the interest of those who have served. Demobilization should be based on the principle that members of the Armed Forces should not be discharged until their economic security is assured by placement in peaceful employment or by assisted training and education to that end.

Here, in this simple statement of progressive, realistic policy is the only true solution of the fundamental problem by which every ex-serviceman and woman is faced. It is the only assurance of a square deal for all veterans. It is the very basis of the Rehabilitation Policies of the Progressive Conservative Party. No veteran will be discharged until his life will be in assured of a decent livelihood.

"Particulars will not fill empty stomachs," declares John Bracken, now generalissimo people jobs for those who have fought, and over-education about people jobs is the head of the children and their husbands and fathers gave life itself they might live in peace and security.

Here, in this simple statement of progressive, realistic policy is the only true solution of the fundamental problem by which every ex-serviceman and woman is faced. It is the only assurance of a square deal for all veterans. It is the very basis of the Rehabilitation Policies of the Progressive Conservative Party. No veteran will be discharged until his life will be in assured of a decent livelihood.

It is significant that more than half of the Progressive Conservative candidates are service and ex-servicemen. No other party can even compete with this record. It is the only assurance of a square deal for all veterans. It is the very basis of the Rehabilitation Policies of the Progressive Conservative Party. No veteran will be discharged until his life will be in assured of a decent livelihood.

They know that John Bracken, leader of three sons who served in the war, understands the problem, the hopes

and the fears of veterans.

They say, with John Bracken, "The cost of winning the war and the cost of re-establishing those who served in it, to use and individuals, is the plainest words of my command."

It is the plainest words of my command. It is the plainest words of my command. It is the plainest words of my command. It is the plainest words of my command.

It is the plainest words of my command. It is the plainest words of my command. It is the plainest words of my command. It is the plainest words of my command.

Student Union Press Release

The students were very pleased to see Mr. Hargrave at school again after his recent illness.

Mr. Hargrave had been absent from school, and from all sports, has left our midst entirely.

Margaret has been as usual busy in child psychology. Just ask Miss Tait.

Sheila Dyer was an Edmonton visitor last week. What's the story on the baby and where was it?

A resolution has been made by the students of English 2, to be perfect little naps for the next 12 weeks.

There was great excitement on Monday due to the long-awaited arrival of the latest credits and points. The finished product, however, even more exciting than the details.

Sedgewick news to hold grand picnic, basketball games, lawn tennis, and other sports.

By the way, don't forget the school picnic on Saturday. Take it from some who know.

The Loughheed news seemed to be coming in fast. Wednesday World Hargrave was speaking to us about it.

Edmonton are coming on. What do you think of the idea of using for the teachers?

With someone please inform me of the date of the next meeting. I left a month ago, but I'm back.

Best: You Hargrave walking down the street. Don't even give me a word. You Hargrave and he won't give you.

Hand Milking is on the Way Out

Freedom from the tiring and strenuous job of hand milking is being gained by thousands of farm families through the use of a modern milking machine.

One person can milk up to 20 cows in an hour with a milking machine—It keeps a good hand milker busy to milk 7 to 9 cows in the same time.

This saving of time and labor is important, especially when good farm help is hard to get, but at any time milking is a distasteful chore that the family is glad to have taken off their hands.

The hours of time saved with a milking machine does mean something in dollars and cents but it means a lot more in making farm life easier and more pleasant. Everybody welcomes the relief from milking and the blue that a milking machine brings.

The modern, practical and economical way to do things is to use machines instead of muscles wherever possible—that is why hand milking is to be for dairymen who have experienced the comfort and convenience of a mechanical milker.

Among the time and labor saving devices your local Massey-Harris dealer has to offer is the Ray-Way Milker—the modern milker with the natural action. Ask him for particulars about this machine that does so much to make dairy farming easier and more profitable.

THE MODERN, PRACTICAL AND ECONOMICAL WAY TO DO THINGS IS TO USE MACHINES INSTEAD OF MUSCLES WHEREVER POSSIBLE—THAT IS WHY HAND MILKING IS TO BE FOR DAIRYMEN WHO HAVE EXPERIENCED THE COMFORT AND CONVENIENCE OF A MECHANICAL MILKER.

WEATHER BALLOON FOUND
BY STROME RESIDENT

There were still plenty of people having plenty of fun.

The Sports Reporter wishes thanks to everyone who has promised an even better Sports Day next year.

A balloon sent up by a weather station carried it to a height of 11 miles. The balloons burst and an instrument came slowly down on a small parachute. While in the air the instrument acted as a radiometer, broadcasting the temperature, the pressure and moisture of the air. The instrument landed in the field of Mr. Harry Taylor on Sunday.

On a note attached, the instrument belongs to the United States Government, and the finder is asked

THE DESTROYING WEAR

The all-weather, with Goodyear's exclusive Tread Channel, has about 800 inches of working grooves, which give superior rubber action. This is fully substantiated by the test results shown many miles of driver tests.

SEDGWICK ACTIONS

Mr. and Mrs. Gordon Huggins and two boys left Friday for a two-week holiday on hot lake and also at Killam, N.S.

Mrs. Fred Brown and daughter of Killam are spending the week at the Wm. Hoffman home.

Mr. Allen and two children from Hudson are guests at the William Hoffman home.

Mrs. Amelia Crompton has returned after two weeks at the A. Millar home in Edmonton.

Mr. Wm. Brown returned to his home in Edmonton on Saturday after attending the funeral of his son, Mr. H. Brown.

Mr. C. Leach left on Sunday for his annual holiday. He will be joined in Edmonton by Mr. and Mrs. F.W. Huggins, and will be in Jasper for two weeks.

Donald Hopkins, Mr. Peterson's assistant is holidaying in London.

Miss Olive Armstrong returned to Hudson on Sunday after a few days spent here with her folks.

Mr. and Mrs. Harry Fetter returned last week from a visit spent in Edmonton and Calgary.

Mr. and Mrs. Kemp left the first of the week for Saskatchewan to visit his parents before proceeding to Brandon, Manitoba.

Miss Betty Hopkin celebrated her birthday last Saturday with a party for her young friends.

Mr. H. H. Hay and children are holidaying in the U.S.A.

Mr. and Mrs. McLean and four children will be in Edmonton where they will enjoy a holiday.

Miss Hilda Huggins returned to Killam last week after spending for a two-week holiday here.

We don't know what the game is in the front a spectator's point of view, but from the hall player's point it was a game well worth playing in. We saw Huggins and many other men in the 17th hole. Easily by Sedgewick made the average mistake of shooting the ball everywhere but the right place, at least in the case of the game. We bet his grand children are never left that sort of a game.

As you have probably heard long before this, Mr. Wm. Huggins has disposed of his hotel business here and will move to Victoria to live. The new proprietor, Mr. Herman, will take over the place. We will have a lot more to say about this deal a little later on.

Miss Carol Tenale is back on the job again after a holiday.

Visitors in Killam last week included F. Hopper, Mr. and Mrs. J. Huggins, Mrs. V.E. Just, J. L. Macdonald and Katherine and Bill Tenale.

Privately Ralph Lark, Army, and only recently returned from a prisoner of war camp in Germany, and Mr. Christian Cameron of Edmonton arrived this week and are enjoying old acquaintances here.

Mrs. O. Witherspoon of Union B.C. and little daughter, are visiting with relatives here.

Mrs. Geo. Crooks entertained at bridge last Tuesday in honor of Mrs. W. J. Hayter.

Mrs. Howard Smith, R.N., has been doing special nursing in the Killam hospital recently.

Born To Mr. and Mrs. Bert Christianson on August 2nd, a daughter, a son, Congratulations.

Jarvis Hume left on August 2nd to return to his duties with the Royal Canadian Navy.

Lloyd Handall left recently for his army duties in the East after he had spent a hour with his family.

Mr. and Mrs. Bill Ross and the children were business callers in Edmonton last week.

Mr. A. Carmichael and daughter, Ruth, returned to the home in Killam on Sunday morning after spending a week at the home of Mr. and Mrs. A. Carmichael.

Mr. CURT HARRIS has been busy meeting a redoubtable man his farm just south of town where his family party will take up residence.

The first CWACs to arrive in Canada had to be posted with the occupation forces before leaving England. One of them was Capt. Margaret Eaton, who is shown in the background.

Immediately after she had received her basic training at Vermilion, she was sent to St. Anne de Belleville, Que. for a N.C. course. She was then sent to McMillan, where she was put in charge of the Medical Instruction Room at Rimmer Barracks. Sept. 1, '44, she attended a three month staff course at the same barracks. After the completion of this she did radiographic work in Colonel Decker Military Hospital, Calgary. Posted to Regina in May, 1945, she was assigned to the X-ray department of No. 202nd Postal Hospital, Regina. She was transferred to the X-ray department of No. 202nd Postal Hospital, Regina, where "Take a deep breath," she was told, "because you are occupying Rimmer anywhere from 10 to 15 years. The girls have been sent to relieve long service men who are to be repatriated as soon as possible. It is not to be understood by members of the Canadian Women's Army Corps. All but 22 reverted to the status of private in order to get out of the service as soon as possible. For day had at last arrived and they were really on their way. And haveaways were well given with extra supplies of clothing and other articles for the overseas. Just think, after four years ago there was no

THE MONEY

LIKE thousands of other Canadians, farmers will welcome the 9th Victory Loan as another opportunity to save money to provide for future plans.

Canada needs more money now . . . to make loans to foreign countries so that they can establish credits which will enable them to buy food and other things which they require.

Victory Bonds also provide a reserve fund of working capital for our own use . . . so handy to have so many times. Any bank will buy Victory Bonds at any time, or loan money on Victory Bonds if we need cash.

. . . and for our future plans, we'll have the money required for things we want to do . . .

Get ready to buy more Victory Bonds this Fall.

buy domestic this time — the same rate of savings as in previous loans will pay for twice as many bonds over the 12 month period.

and said farmers would be asked to keep their present acreage of around twenty to thirty acres and to plant a half million acres of new corn, that they should be given the right to increase their acreage and after that plant soy beans and barley as well.

He said that as long as the federal government continues to sell grain at a ceiling price of \$1.50, but if prices are taken off the government will raise the \$1.50 ceiling on corn and the \$1.25 ceiling on soy beans. If prices are taken off, the \$1.50 ceiling will be \$1.25.

The Need For Confidence

IT IS NOW APPARENT that there are many obstacles in the way of permanent peace and security for the world and that this has left great problems which must be solved. Much of the responsibility of solving these problems rests on the "Big Three" of the United Nations, Great Britain, the United States and Russia, and a great deal of our hope for the future rests on the actions and decisions of these great powers.

Mr. Winston Churchill, British Prime Minister, has been in Canada, dealing with this subject in a most public address, in which he stated that relations between these three nations are of the utmost importance to the future peace of the world. At the same time, he has given great praise to many of our citizens who seek to do us up and understand. As an example he recalled how the British people have been broadminded and tolerant in accepting their position for their own ends in an unselfish manner.

In the same spirit critics have declared that the British people have been broadminded and tolerant in accepting their position for their own ends in an unselfish manner. Referring to the prisoners held by British military forces in Germany, Mr. Churchill declared that this is a subject which will be dealt with in the future. He stated that the British people have been broadminded and tolerant in accepting their position for their own ends in an unselfish manner.

Price Control And Rational Information

Q- I based on the radio the other day that we were getting more price control in December. Will you kindly give me some information on this subject?

A- Instead of one single price and two separate coupons being issued for the same item, the government has decided to issue a single coupon for the same amount of sugar, but if more coupons are desired for Christmas, the four separate coupons may be used. Coupons for 1945 and 1946 become valid on December 20.

Q- We are going to have a house and want to sell better and cheaper than before. Will it be necessary to collect ration coupons for these items?

A- It is not necessary to collect ration coupons for these items. You may sell them as you wish, but you must have the coupons for the same amount of sugar, but if more coupons are desired for Christmas, the four separate coupons may be used.

Q- Are ration coupons under a ration price?

A- Yes, the Christmas ration price will be sold at a price higher than the regular price. The government is trying to get the maximum amount of goods for the "personal" type of rationing.

Q- I have a question or two regarding the rationing of goods. Will it be necessary to collect ration coupons for these items?

A- It is not necessary to collect ration coupons for these items. You may sell them as you wish, but you must have the coupons for the same amount of sugar, but if more coupons are desired for Christmas, the four separate coupons may be used.

FILM PROGRAMS

For information on the Public Health in Rural Areas

Country doctors and district nurses have found National Film Board programs a most useful means of spreading information on public health in rural areas. They frequently recommend the Board's film representatives to their friends who are getting more and more interested in public health.

A CHRISTIAN MESSAGE

Already we begin to feel the sweep of life which hurries us along in the keeping of the Christmas season; the villages have taken on a Christmas dress, store windows glimmer with toys; homes are decked with holly and soon the spirit of good-cheer greets, "A Merry Christmas."

"We hear the bells on Christmas Day
Their old familiar carols play,
And wild and sweet the words repeat
Of Peace on earth, Goodwill to men."

The meaning of this season and its joy is to be found in the event which happened over nineteen hundred years ago. "Unto us is born a Saviour, who is Christ the Lord." That advent, heralded by angels and humble shepherds was the beginning of a new revelation to men, disclosing to them the true path of peace. Peace, on Christmas is not simply the absence of strife, Peace was the missing which came to men when their lives were lived in harmony with God and their fellow men. In other words the Christmas message asks for the open heart and the Christmas message asks for the open heart and the Christmas message asks for the open heart.

It tells us that as we open our hearts to find his peace, that as we give goodwill to men we return to us again. There is no need to hurry, the joy of Christmas time is to spend it in selfless joy and love. There is no better way to find it than in making it "A Merry Christmas" for others.

For not a few of our communities the merry bells of Yuletide will bring sorrow, trouble and joy, when they think of former happy Christmas spent in others' company. Be it ours to "chase away the darkness, draw forth the cheerful day from night."

At this season let the spirit of kindness have control and we shall make the season the gladdest of the whole year. They who have found the meaning of the Nativity and found "rings of glory."

EMERGENCIES

arise in any family

Banks are continually making small loans to meet these emergencies which are just the best-planned budget.

Most of every five bank loans are for less than \$500. Many of these are used to take care of such expenses as doctor or hospital bills, temporary embarrassment at tax-time, a sudden journey, the winter's cold bill.

Again, educational needs of the family often are financed by small bank loans.

These small loans enable individuals to consolidate debts, and to pay back in income.

Wedding Bells

PRINT — McWARD

The bride of Mr. and Mrs. W. S. Price, Trudy Albert, nee, was the niece of a very pretty afternoon ceremony on Jan. 26, when their daughter, Kathryn Marie, was married to Mr. Albert.

McMahon, son of Mrs. and Mrs. W. McMahon of Kilburn. Rev. J. Clarke officiated.

Given in marriage by his father, the bride was afterwards accompanied by a number of guests, including a number of young ladies and a carriage of red roses. Miss Pauline (quintessence of the bride) was wearing a gown of gold crepe with contrasting black accessories. Her carriage was of yellow rose buds. J. J. Spalding officiated.

Evening in the coffee room served by the ladies of the church. The first beer, while guests were waiting, was given to the members of the community who were having the added pleasure of attending the wedding. The ladies, unaware of the fact that they were making contributions to the church, were talking to the people who were having something new to talk about. The ladies were in place at Grosvenor, which could not happen under the old committee.

Second in order was the wedding. The bride was wearing a gown of white with a few rose buds in the hair which she thought

After the wedding, a reception was held at thirty paces. The tables were laid with lace and centered with a tiered wedding cake.

Mrs. Priest, mother of the bride, wore a two-piece suit in flannel. Mrs. McManis, mother-in-law, wore a green, close afternoon frock of plain crepe. Their ensemble was completed with conventional hats.

The feast in the parlors of the bride was prepared by Rev. Charles and the organ responded.

An Experiment in Collaboration

IN addition to the Combined Products and Resources Board and the Combined Fair Materials Board at the beginning of the New Year has drawn attention to the important services rendered by these two organizations during the critical war years. It is expected that the Combined Food Board which was announced with the other two boards in January 1945, will be able to coordinate the efforts of these three organizations in a more effective manner.

Food Crisis Were Averted

At the time the Combined Fair Materials Board was announced, they were described as the "combined" of the three organizations. This combination towards the allied victory had the working out of a "combined" of the three organizations. It was the combined efforts of these three organizations in North Africa and in Normandy. They also made a large contribution in strengthening and differentiating the efforts of these three organizations in the early days of the war. In addition to the combined efforts of these three organizations, they averted many serious food crises in Allied countries by working out a system through which food was advanced against the nations working out of the combined efforts of these three organizations.

Has Applications For Recruiters

Those who are interested in the combined efforts of these three organizations in North Africa and in Normandy. They also made a large contribution in strengthening and differentiating the efforts of these three organizations in the early days of the war. In addition to the combined efforts of these three organizations, they averted many serious food crises in Allied countries by working out a system through which food was advanced against the nations working out of the combined efforts of these three organizations.

How to Combat RHEUMATISM

It is a fact that rheumatism is one of the most common and most painful of all diseases. It is a disease that can be combated by the use of the combined efforts of these three organizations. It is a disease that can be combated by the use of the combined efforts of these three organizations. It is a disease that can be combated by the use of the combined efforts of these three organizations.

COMMERCIALIZATION OF SPORT

There is perhaps no question in the world today which could not be argued from more than one side with logic and a certain assurance of truth. One question which is receiving a lot of attention today is the very noticeable trend toward commercialization of sports.

Today, the idea seems to be becoming ever popular, to think first of the dollars and cents, and then of the sports. The idea of playing a game for the pure love of playing is being pushed gradually but surely into a secondary consideration.

One of our greatest national sports, hockey, is the most popular game in Canada today, is the latest of our great sporting games to gradually follow the lead set by the other sports. It is a game that is becoming ever more popular, and the local business is a prey and strictly amateur game, where the club which sponsored the sport invited other clubs to compete for prizes of great intrinsic value but more for the glory of having taken on other clubs and emerged as the all-powerful contenders in a game where commercialism comes with another meaning.

The very idea of amateurism as a rule was founded upon the principle of amateurism, and in almost every sport we notice that there is a trend in this way. In this way the club sponsoring the sport collects enough cash to pay for the prizes and have a modest profit.

Along this line of thought, we give you here an editorial from the North American Curling News which is printed in Wisconsin.

THE TREND - Although being but slight notice of the nature of the curling fraternity, the price of curling has risen steadily during the past few years. Not the least of the reasons for this is the fact that the average curler isn't worth the price paid by the curler who dies up the required money. It's just plain fact that the curler who is getting richer. Whether this upward trend is amicable with the traditions of the game, or whether the higher life is justified, is a question, rise in many quarters.

"In the not so distant past, curling was a function one attended strictly as a guest of the host club. In the most cases curling was a social affair, and a few from their visiting 'Britches'. Of course, this style of 'gathering' called for the cooperation of the entire membership of the host club who, aside from being expected to lay some expense money on the line, were delegated, individually, to dispense a brand of hospitality commensurate with the established custom of the club."

"In other words, club staging curling was really the hosts advertised themselves to be, and relied not a whit on possible income from tourists who paid to play. We avoid day curling, though, have apparently gone off on a different tack from the course laid out by our predecessors: we now the curling club is the club that is the club. Consequence to those immediately concerned with its receipt, but it is blazoned forth on every roster and letter of invitation dispatched."

"To an unbiased observer, it must appear strange that curling clubs throughout the land continue to advertise the merits of their sport, their hospitality, and the use of their curling facilities, all at an increasing price. Surely the obvious must be at least as great if it be the opinion that some clubs, and that by such publicity the game of curling approaches commercialization."

According to the above editorial, the trend is not one of "hooray" response, but is now almost nationwide. However, curling is a new member of this large group of commercialized sports. It is a sport that is getting back after it gets in to be deep. Perhaps the biggest difference in our country is hockey, that is organized hockey where the players are paid. In becoming a complete stranger, in this case of amateur curling is supposed to have only amateur players, we would venture to say that perhaps some of the players are not amateurs. Recently when one member of the Ontario Curling Association was asked the Chicago Pro Club, Education Pro Management made a more "attractive offer" in order to keep the player in Edmonton.

Of course there is a difference between the player who spends much his living at a game. He is known

We were reading an old Solgerwick paper the other day, dated 1906, in which the Editor, Mr. Hovoe, said that there were 10,000 men in camp, and that Solgerwick was in desperate need of a grain elevator. Nowadays the grain layers are in desperate need of grain.

Handfuls of bushels of U. N. potatoes are being eaten locally. They are very nice looking goods, but like a lot of new looking stuff, they are only skin deep. We are told by the Dept. of Agr. that

It becomes more urgent than ever that **SOMETHING SHOULD BE DONE.**

THE TIME FOR ACTION IS NOW: The money paid by motorists for license and gasoline taxes is sufficient to finance a comprehensive road building program and the Alberta Government now has such a program before it planned by the Department of Public Works. This plan should be put into effect without delay.

The Alberta Motor Association has never raised its position of the modern highway system. It

Australian Anniversary

THE PEOPLE OF AUSTRALIA recently observed the 50th anniversary of the entry of their country into the ranks of the British Commonwealth. This anniversary is called "Australia Day" and it was celebrated this year for the first time since the end of the war. From Canada and many other parts of the Empire, messages were sent, expressing the hope that Australia would enjoy increased progress and prosperity in the future, and bring tribute to her war effort. After the history of the campaign in the Pacific, Australia was in direct danger of its security as a possible bridge to the Japanese, and her forces played a major role in many of the decisive battles in that area, as well as in other theaters of war. It is a fact that the Australian campaign in New Guinea brought about the turning point in the war against Japan, and that Australia's ground and air forces at the time had been almost entirely destroyed by the Japanese.

PERSONAL STUFF

—By A. W. E.—

It is Saturday, March 2nd as we sit at our machine typing and our various thoughts line up, and we find it quite difficult to get our work with our fingers crossed. We have had our fingers that way since our four thumbas boarded the train for the swine of the Florida Cattle Trade. Perhaps some of you think we harp too much about this Bitter business, but we think we are perfectly justified, in as much as we will only come to a normal type of routine life in a little town of 500 population giving the opportunity to have itself talked about so much and over such a vast part of the country.

We give your consideration is to be seen in handling out assistance in our commercial situation. One can

This week we introduce in two & two advertisements the Sterling Floor Mill of Strome. This firm announces this week the opening of their new Sturtevant Feed Service. It is the intention of this firm to become one of our regular advertisers. We ask our readers to patronize this firm at every opportunity, as well as those of our other advertisers.

If present intended legislation is passed without amendment our big game hunters will be allowed to hunt on Sundays. Why not go still further and make the hunting of game birds legal on Sundays also? I am sure that many of you who find it almost impossible to get out during the week day evenings and for those people the bird hunting season means little or nothing. We would far rather see each Wednesday or Monday or some week day closed for hunting than have no game birds. We don't suppose our non-hunting this will have any effect on future legislation, but it's a thought anyway.

The "Blanche Enterprise had a little item in last week's edition of a woman visiting in Edmonton and was looking for the Post Office. She asked a policeman just across the street from the banked for building. He said, "My dear lady, didn't you see the clock?" To which the lady replied, "My good man, I am not looking for the clock. I am looking for the Post Office."

Humbrenden has won the Eastern section of the Highway 21 Hockey Playdowns and will meet the winner of the Dayland and Selkirk

From the backs of our seats, we may see some time if at all before the speaker is considered. In fact, we would just as soon be standing as arrive as to see the final speaker.

We have on our desk the speech made in the house recently by our local member, A. Edward Fee. Mr. A. E. Fee in reply to the speech from the throne. We intend to give you this speech in full, word for word, just as soon as we can get it. It is rather lengthy but is well worth reading and digesting.

Sometimes we get quite a little out of the stivings of the members.

about this. His situation. That was rather funny. We were often wondered why members of parliament do not speak in plain ordinary "country folk style" language. Instead of all the poetic and high-sounding etc. etc. etc. saying that they do use a larger number of people would read the words if they could get more facts and fewer wasted words.

It is astonishing how newspapers have had to suffer for money to take care of subscribers. I think that a great deal of good paper practically wasted in various institutions, both governmental and

propaganda. We got basket after basket of it we say basket, 'cause that's where most of it ends up

A stately British lady went into the Bank of England to consult the banker about investments in the British War Loan. The clerk to whom she talked was a rather grave person. He inquired:

It is a case of a subscription ~~not~~ version or redemption madam?

The lady looked through her hair with a frown. "Pardon me, is this the Bank of England or the Church of England?"

Mr. Andrew United Church of Canada was the scene of a very pretty wedding on Friday afternoon, June 28th, when Miss Mary Margaret Macdonald, daughter of Mr. and Mrs. J. Macdonald, of Calgary, was united in marriage to Mr. J. Macdonald, of Calgary.

The bride, wearing a white gown, was escorted by Mr. J. Macdonald, her father. The groom, wearing a white suit, was escorted by Mr. J. Macdonald, his father.

The ceremony was performed by Rev. J. Macdonald, who read the opening prayer. The bride and groom then exchanged vows and rings.

The reception was held at the home of Mr. and Mrs. J. Macdonald. There were many guests, including friends and relatives.

The bride and groom were accompanied by their bridesmaids and groomsmen. The wedding party was very large.

STROME JOTTINGS Mr. and Mrs. J. D. Woollett

A quiet wedding was solemnized in the United Church Manse at Sturine on June 24th, when Mr. E. E. Brown and Miss Molly Ellen Lewis were united in holy matrimony by Rev. Mr. Kilham. Rev. Woodliff officiated.

Mr. and Mrs. D. G. Gibbons left on Saturday morning for Sturine and other points of the Province.

Q C HARRY ordered from Milwaukee.

Harold Haasett, former Sturine resident, but who has spent several years in the States, is now in Sturine. He will spend a holiday.

Don Krug, who has been employed at Trail, B. C., is a visitor to his parents, the M. Krugs.

School closed last Friday.

Misses Alice Hayes, Doreen Rich and Linda Curtis have gone to C. G. to visit.

Mr. and Mrs. Claude Phillips and family, who have been here at the R. Bricker home.

Several from Etomoo attended the dance at Leith School on Friday.

Mrs. John Pease of Vancouver, B. C. is a visitor at the B. M. McKinlay home.

Joe Williams, who had spent some time in Eastern Canada, arrived to join Mrs. Williams who is staying at the home of her mother, Mrs. Laura Richardson.

Dorothy Robbins and Dorothy McEwen, who are visiting in the

man's week end.

Mr. Brian Day and son Jerry of Seattle, Wash. were Brownie visitors on Saturday, they visited at home of her brothers, Gale and Dutch Howard.

Bill Johnson of Holden is a visitor at the home of his parents, Mr. and Mrs. Axel Johnson.

Estimated. The economic line was

COAST-TO-COAST KELLOGG'S ARE CANADA'S choice for any meal anytime!

Want an idea of what help you can expect from Kellogg's? Think of the time you save when you eat Kellogg's for breakfast. Kellogg's is not only for breakfast but for quick meals anytime of day. Pop Corn Flakes, All-Brain, Bran Flakes, Bran Flakes, Kellogg's, and All-Wheat are all made by Kellogg's, the greatest name in cereals.

SAVE TIME...SAVE FUEL...SAVE FOOD! The Making of One World

AMONG THE MOST IMPORTANT factors in the making of the "one world" which we now so much desire, is the spirit, in more than anything else, has reduced the distance between countries and continents and has made the world, indeed, into a relatively small neighborhood. Records show that in the past, it took an average of 100 days to travel from one continent to another, while today the average speed of the ship is 200 miles per hour. In addition, we now have aircraft which travel at an amazing speed, and it is expected that the world's largest airlines, powered by jet-propulsion, will soon be in service.

Has Raised Many New Problems
The development of air travel has not only increased the distance between countries from the point of view of traveling time but it has also raised many new problems for the world. One of the most important of these is the problem of the air traffic controller. The air traffic controller is a man who is responsible for the safe and efficient operation of the air traffic. He is a man who is responsible for the safe and efficient operation of the air traffic. He is a man who is responsible for the safe and efficient operation of the air traffic.

Profound Effect On The Future
It is doubtful whether the full effect which air travel development in aviation will have on the world is yet completely realized. Canada alone has been transformed by air travel. The air travel has transformed Canada from a remote and isolated country to a world power. The air travel has transformed Canada from a remote and isolated country to a world power. The air travel has transformed Canada from a remote and isolated country to a world power.

THE PICK OF PIPE TOBACCOS

Sixty Years Of Progress

THIS YEAR MARKS THE SIXTIETH ANNIVERSARY of the founding of the Experimental Farm system in Canada, and in observance of the occasion, the following information is being made available to the public. The information is based on a survey of the system conducted by the Department of Agriculture in 1958. The survey was conducted by the Department of Agriculture in 1958. A.—The spare "Q" coupons to be used will be derived valid from the purchase of meat after August 1st.

These "Q" coupons will be issued

few weeks' time that stretched into seven years in the experience of Mrs. Jorgensen.

In 1920 Mrs. Jorgensen went to Germany to attend her daughter's wedding. She was in Germany for a year in Hamburg, and she spent the entire war there. She had no contact with her husband out of existence and her own home but Glad to be home again.

After the war Mrs. Jorgensen returned to Europe. Mrs. Jorgensen says happily, "Glad's went too good to me. He was a very good man. He had children have proved the most popular occupation groups in Germany."

Under French law, 1100 re- butchers could deal in one type of meat only and could sell it only in one place. The law was made by night or lamp were taboo.

Canada Is Keeping Pace With The U.S.

The efficiency with which Canada pressed out her wartime production has been a source of admiration in the United States. The country has specialized fields which might be expected from the new skills learned in the United States.

The North Star, the ship-maker of Montreal, has built the largest battleships now in service. The Canadian Pacific Lines operates a fleet with a maximum remaining output of 222 million on her way to the United States and 23,000,000 on her way to Europe.

It may be taken as a sample of things to come.

To the accepted ability of Canada to operate in the air has been added the demonstrated capacity of the Dominion's production forces to make the up-to-date planes in which they will fly. It is the

Heard height where God is revealed and the correspondence of all things to the purely military and naval policy.

Let us labor for the larger result, the achievement of our truth and the thorough reputation of error, which shall make the history of mankind the story of our development.

GIVEN FINAL READING

OTTAWA, — The Commons gave the bill its final reading today, amending the criminal code to change the method of selecting juries in Saskatchewan and Alberta. The bill permits Saskatchewan to return to the practice of a 12-man jury and permit Alberta to retain its 10-man jury with an improved system of challenges.

HOME CONDITIONS OF PRINCIPAL CAUSE OF CR.

TORONTO, Sept. 26.—The "crisis in Canada today is between 14 and 17" according to the latest survey by the Dominion Bureau of Statistics.

The Sherrill and Verity Improvement Policies provide for the purchase of a lower or higher percentage of the annual flow of shares. This represents an easy method for investors to obtain leverage on their stock at standard prices. Purchased shares tend to fly fast and leave some assurance of a return on the brewing stock. One cannot blame them for taking advantage of the present high commercial prices but it points toward possible shortages of beverage stock later in the year.

FARM ACCIDENTS

Harvest time accidents are apt to produce serious results. Labor is hard to obtain at best and men capable of taking full charge are extremely hard to find. As the farmer and his help in crop left unharmed. Therefore, we urge extreme care in handling machinery and work slowly at all times of the year. Take off pretensions or mount

Good farmers produce more than their crop. They produce the men who do poor or eat it seasonally will produce indifferent or no crop. We are attracted to the man who is a good one side of the fence and not the other, steady stand on the other side. We are attracted to the man who manages the weather and the market. We see far too many of our summerhousers being "brought down" by the weather. We do not persuade such as

95 percent of the motherless homes in Canada, Col. Dunton declared. This does not always mean poor homes because some criminals come from prosperous homes. Two more severity by parents in some cases not enough in others, deception of children by parents. The last example of few privileged parents and broken homes are the huckster factories that develop poor children etc., according to Col. Beattie.

"The home is first, the school second and the church third in its proper subordination of the parent," said Col. Dunton. "Home conditions are reflected in school conduct and where school conditions are poor, there should be investigation of the home."

Powdered Coal

Used As Fuel For Engines
Just Perfected

Not so many years ago, slack coal was regarded as more or less a waste product. It was used for fuel in the power houses of the coal mines, and for the heating of the houses of the miners. But now it is being used for a much more important purpose. It is being used as fuel for the engines of the great steamships. The reason for this is that it is so much cheaper than the other fuels used in the engines of the great steamships. It is so much cheaper that it is being used for the heating of the houses of the miners. It is so much cheaper that it is being used for the heating of the houses of the miners.

The new engine is a gas turbine which burns coal reduced to a powder as fine as face-powder or lamp-black. It is three times as efficient as the steam engine and, though less efficient than the diesel, has the advantage of using a fuel that is much

POTATOES INCREASE

Yields of sugar beets, dried peas and corn also higher

OTTAWA.—(Continued) increased yields of potatoes, sugar beets, dried peas, and corn, but a reduction in the output of alfalfa for the 1946 crop season was reported by the Dominion Bureau of Statistics in its first estimate of next and late crop production for the year.

The 1946 potato crop, the Bureau said, was estimated at 47,000,000 bushels, and was substantially above the 36,000,000 bushels of 1945. The 1946 sugar beet crop was estimated at 1,200,000 bushels, and was substantially above the 1,000,000 bushels of 1945. The 1946 dried pea crop was estimated at 1,000,000 bushels, and was substantially above the 800,000 bushels of 1945. The 1946 corn crop was estimated at 1,000,000 bushels, and was substantially above the 800,000 bushels of 1945.

It is a tribute to Canada

A Tribute To Canada

THE MANNER in which people of many races have come to this country and lived together in peace and harmony in Canadian cities, stands as an example of what can be achieved on a much larger scale among the nations of the world. Canadian culture has been built up in an atmosphere of tolerance and understanding, and has brought here people from all lands. In Canada, racial prejudices and language and color barriers have been shattered, and the people of many different races and forms of expression in many different forms, have combined to build the cultured life of this country. Among all races of Canadians, scientists, professional men, scholars and those engaged in various forms of the arts, are outstanding citizens whose racial origin is but a part of the Old World. Regardless of this, they work together, as citizens of Canada, for the welfare and advancement of the nation.

In An Example To The World

For many years Canada has been cited as an example of what could be achieved in building permanent peace among the people of the world. The latest tribute of this kind came from the Right Honorable Vincent A. Smith, Secretary of State for the Dominion, who recently made an extensive tour of the United States, and on each of these occasions he advocated what leading statesmen of all nations are now urging, namely that the interests of the United Nations be held above those of individual states and groups of people, in the case of an outbreak of war.

Record Apple Crop

Ontario Valley's Production Is Expected To Exceed \$20,000,000

PROCTOR, B.C. The 1946 apple crop from British Columbia's rich Okanagan Valley will set a new high production record of close to \$20,000,000, fruit exhibitors at this centre said.

An estimated 2,500,000 bushels are going to the United States and Canada to be sold.

Changes from fruit growers will be getting a record cash return this year. Estimates were that the total cash return for the 1946 crop would be close to \$20,000,000, which is a record for the province.

ONCE UPON A TIME THERE LIVED.....

Once upon a time there lived in the minds of humans the thought that freedom was the only thing we needed for democracy. The story had to develop to the stage where we found that freedom was not enough, so we added education, welfare, care of our beloved democracy. There

came the inevitable war, and we found that it added to the list, some pretty stiff anti-trust legislation. In England they went even further and began nationalizing basic industries. Now, the thought arises, what can we or will we do next in our mad attempt to make democracy work, and at the same time keep a hold on democracy? It is a known fact that the more freedom the average person obtains, the less responsibility they take for their country.

democracy work under that kind of a set-up? We need people who will take more responsibility. Law, education and nationalisation earned credit for us. Personal reward seems the only way to assume responsibility. If a war broke out, men would still volunteer to defend democracy. Assume responsibility for their country, but don't want another war to make democracy workable.

One of our statesmen says in part: "If we keep a nation and a world free from corruption must raise men again that love for something other than themselves."

With shouting, flag waving and even prayer send representatives to iron out international tensions, while we remain at home to bicker and with our neighbors, letting civic, municipal and national conditions get steadily worse and worse.

It all leads right back to the basic problem: we must change human nature. And that is so that takes faith, trust and co-operation. And enough for it! Think it over.

Suffering China Calls
to Canadian Farmers

WAR has spread wreckage and suffering among the 500,000,000 people of China's Pacific neighbor.

Blasted from farms and villages, millions of Chinese families are homeless, hungry and in rags, dying daily from starvation and disease. China was first to feel the Pacific onslaught. For eight terrible years from July, 1937 to August, 1945 China heroically braved the aggressor's bombs. Two years longer than any of her allies.

Farmers Call to Farmers
Today, China presents a heart-rending spectacle to Canadians mercifully spared the ravages of enemy guns and bombs. And especially to Canadian Farmers.

About 83 per cent. of China's 200,000,000 people are peasant farmers. To the scourge of Japanese military artillery have been added, in many districts, flood and drought, and lack of seed grain. Besides the need for food, clothing, medical supplies, household equipment, there is urgent need for reconstruction of farms and homes.

Canada's Aid Essential
Under the war, Canadians, through the Chinese War Relief Fund, set to China some \$1,654,000 in money and 1,454,000 pounds of food clothing, valued at some \$3,920,000. But the aftermath of war can be more terrible than war itself. The world-wide relief work of the United Nations Relief and

IN MEMORIAM

In loving remembrance of a sister, who died one year ago, say
29th Dec. 1946.

She made no one a lost star
She made gently less to miss;
"The heart goes on" she said
And left behind her a warm
wreath—

A loving wife said, "Come!"
Ever remembered by her
sister and brother, Nellie and
Family.

PRODUCTION OF RUHR'S STEEL VITAL PROBLEM

At present the Big Four agree on a 10 per cent level of German industry's maximum steel production capacity of 7,500,000 tons a year, with actual output restricted to 7,000,000 tons. The agreement also provides for a 10 per cent increase in capacity to 8,250,000 tons by 1955, and a further 10 per cent increase to 9,075,000 tons by 1960.

7. The following table shows the number of people who visited the museum in each month.

It may seem wrong, says a British man trying to increase the allowed production level of his little plant, and he is right. But the government has no choice. It is obliged to meet the demand of the 10 million motorists that the British are taking the long view of the present needs of Germany and Europe.

tively short-term difficulties, such as acute labor and coal shortages, food

Of the 45 main steel plants in the Ruhr only 21 are running. They have a pre-war productive capacity of 12,000,000 tons but are turning out only 2,000,000 tons a year.

Farmers Evidently Good Risk For Loans

In the 17th annual report the Canadian Farm Loan Board, a Dominion Government agency operating in all the provinces and carrying on the business of making loans to farmers — the security of mortgages on their farms — reviews its operations for 12 months ended March 31, 1946.

ment and farm lands to erect buildings and to make other farm im-

improvements the maximum amount that may be loaned to any one farmer is \$3,000 on first mortgage and \$6,000 on first and second mortgages. The loans are repayable on terms of from five to twenty-five years by equal yearly or half-yearly payments. The rate of interest charged is 4 1/2 per cent on first mortgages and 3 per cent on second mortgages and on arrears.

and for which farmers have been borrowing money from the Board have

changed during the last few years. In 1940-41 about 77 per cent of the money loaned was used to pay debts and 9 per cent used to buy land, while in 1945-46 only 53 per cent of the money loaned was required to pay debts and 36 per cent used to purchase land. A similar trend was evident in respect to increased expenditure for improvements to buildings, etc.

report shows that 52 per cent was loaned in the four western provinces and 48 per cent to the five eastern

In the seventeen years of its existence, the Board has lent over \$54,000,000 to 26,540 farmers and of the above amount \$30,425,000 has been repaid. Another noticeable feature of the Board's operations is the large number of borrowers who have retired their loans or who have made substantial reductions in their outstanding mortgage debts.

The report also shows that the interest in arrears for more than six months on all outstanding first mortgages

PERSONAL STUFF
By A. W. E.
Sometimes we get just a little bit of news from our friends. It is often a small thing, but it is a thing that we want to know about.

DEATH
ROLAND ALBERT STEPHENSON
Roland Albert Stephenson, son of Mr. and Mrs. A. W. Stephenson, died at his home in Sedgewick, Alberta, on March 25, 1947.

THANK YOU
We wish to thank all our friends and acquaintances who have helped us in our time of need. Your kindness and sympathy have been a great comfort to us.

Rural Housing

THE QUESTION OF HOMEOWNERS remains the first in Canadian efforts and constitutes one of the major problems facing the country. The land is large and densely populated regions, the situation has been particularly acute, and that of the public interest and the matter has been directed towards these areas. It is in these that the greatest efforts have been made to relieve the existing housing shortage. It is not that the need has been greater in such places. It should not be overlooked however that rural housing has been the most difficult to solve. A combination of factors and materials and that no national housing project will be completed in conditions in many districts have been greatly affected.

Many Advances Have Been Made
There are a great many cases where too little care and planning has gone into the building of rural housing. Many have been made in design for rural farm homes. It is important to note that this connection that recently a survey, attended by rural housing representatives from various parts of the country, was held in the city of Toronto. The meeting was attended by the Federal Housing Commission, the National Housing Act, and the National Housing Act. It was agreed that a combination of factors and materials and that no national housing project will be completed in conditions in many districts have been greatly affected.

Is A Better Home For Her Homes
Long before the first housing problem had arisen, it was a well-known fact that the rural farm home was the most important and desirable, and that of the rural housing problem. It was a well-known fact that the rural farm home was the most important and desirable, and that of the rural housing problem.

PRairie Provinces Show Betterment In Business Failures

There was a 25 per cent reduction in the number of business failures in the prairie provinces during the first nine months of 1935 compared with the same period in 1934. This was the result of a combination of factors, including a general improvement in the business situation, a decrease in the number of new businesses started, and a decrease in the number of businesses that failed.

The following table shows the number of business failures in the prairie provinces for the first nine months of 1935 compared with the same period in 1934:

OUR COMPLETE SHORT STORY THE IRASCIBLE DARLING

By Nicholas P. Nickerson

Generally Paul Brown was a job but after an incident on a train, he was made to make his way in the world. He was a man who was not afraid of anything, and he was a man who was not afraid of anything.

He was a man who was not afraid of anything, and he was a man who was not afraid of anything. He was a man who was not afraid of anything, and he was a man who was not afraid of anything.

He was a man who was not afraid of anything, and he was a man who was not afraid of anything. He was a man who was not afraid of anything, and he was a man who was not afraid of anything.

He was a man who was not afraid of anything, and he was a man who was not afraid of anything. He was a man who was not afraid of anything, and he was a man who was not afraid of anything.

He was a man who was not afraid of anything, and he was a man who was not afraid of anything. He was a man who was not afraid of anything, and he was a man who was not afraid of anything.

He was a man who was not afraid of anything, and he was a man who was not afraid of anything. He was a man who was not afraid of anything, and he was a man who was not afraid of anything.

He was a man who was not afraid of anything, and he was a man who was not afraid of anything. He was a man who was not afraid of anything, and he was a man who was not afraid of anything.

He was a man who was not afraid of anything, and he was a man who was not afraid of anything. He was a man who was not afraid of anything, and he was a man who was not afraid of anything.

He was a man who was not afraid of anything, and he was a man who was not afraid of anything. He was a man who was not afraid of anything, and he was a man who was not afraid of anything.

He was a man who was not afraid of anything, and he was a man who was not afraid of anything. He was a man who was not afraid of anything, and he was a man who was not afraid of anything.

GERMOLINE

It is not hard to find a good product, but it is hard to find a good product that is as good as GERMOLINE. GERMOLINE is a product that is made from the best ingredients, and it is a product that is made in a clean and sanitary manner.

COLEMAN

50 MUCH LIGHT

... So LITTLE COST!

Good light is a matter where you live. For over 30 years Coleman lamps have been bringing better light—more light at less cost—into homes everywhere.

Coleman Lamp gives more light than 20 old style oil lamps, and it gives more light than 20 old style oil lamps. Coleman lamps are made from the best materials, and they are made in a clean and sanitary manner.

More Profit in Early Chick

British waste more Canadian shell eggs in the U.S. and winter months and are prepared to pay prices that will assure a profitable year for U.S. producers. Recent checks in February and March mean U.S. buyers will be buying eggs well below the 1967 level. Current contracts with British are for a total of 10 million dollars in 1967 and 1968. The last year is to be 10 million, 10% from that market in 1967 and 1968. When the checks are delivered this fall, however, there is no doubt that the market will be even better.

STORME SPORT COLUMN

The Baseball and Girls Softball workshops which were slotted for Sunday, were called off on account of the weather. Both the junior and the girls are planning a real successful year. It is going to be a year of fun and support for the fans. We hope to have very good games here this year which are going to be worth supporting.

FEW ACQUIRE ART OF LETTER WRITING

The craft of writing can be taught. Through practice and criticism young people acquire the technique of clear and effective letters just as certainly as they can be taught to read and to write.

Training in writing will not make every boy and girl a literary artist, but it will enable them to write letters which are not only correct in form but also clear and convincing in content. It is because they are not trained that many of our letters are so poor. It is because they are not trained that many of our letters are so poor. It is because they are not trained that many of our letters are so poor.

Fine Cut
Rolls on All Cigarettes

NO LITTLE TIME, NO LITTLE NEAR—Company coming, there's nothing for dessert, and the bakery's closed and all out—there you have a picture representing mankind. It doesn't seem so, though, if you get busy whipping up this Ginger Fluke Cake that takes only a half hour. The ingredients are the staple ones that you're sure to have in stock.

- Ginger Fluke Cake
- 1 cup shortening
 - 1 cup sugar
 - 1 cup molasses
 - 1 cup corn flakes
 - 1 cup hot water
 - 1 egg
 - 1 teaspoon vanilla
 - 1 teaspoon ginger

Well, stir in corn flakes which have been crushed into fine crumbs and dry ingredients. Add water and beat until smooth. Pour into greased baking pan and bake in moderate oven (375° F.) 30 to 35 minutes. (Serves 8.)

REVEALS MOST MILK SUPPLIES UNFATTERED

In view of the scientific fact that "infant" milk is at the bottom of the food chain, it is no surprising revelation that of the 100,000,000 reported in a recent survey in the 100,000,000 people in Canada, only 10 per cent were revealed to have a complete understanding of the milk supply in the Dominion.

Health leaders headed the individual persons in the matter of milk and were reporting milk with by-products, per cent, being in this category. The survey was made with 10 per cent of the population.

Of the 100 reporting municipalities, 100 per cent of the population, reported their milk supply was not fat. It was revealed that 100 per cent of the population was not fat. It was revealed that 100 per cent of the population was not fat.

From the results of the survey, it would appear that most of the population of Canada are taking raw milk despite the fact that raw milk is dangerous—despite the fact that milk-borne diseases have caused pneumonia, killing and crippling children.

Patented milk is the only safe milk.

Canada Shoring Is Lanes Costs

MONTREAL.—Canada and three other countries agreed an agreement to contribute to the international financing of the Lanes (long range) navigation aid station at VIK, Quebec, an important link in the chain of stations designed to ensure navigation safety for trans-Atlantic traffic over the northern route.

The United States already is a party to the arrangement with Ireland, the United Kingdom, France and the Netherlands. Operation of the VIK station had been financed in the past by the United States and Italy by the Royal Air Force until a short time ago.

Under the agreement, Canada will have 10 per cent of the approximately \$400,000 cost of operating the VIK station, with Ireland contributing five per cent, and the remainder allocated among the other signatories in agreed proportion according to the size of their navies.

THE OTHERS TO SHARE.—The Ottawa Journal said that the cost of the Canadian station for last year's record for last year was \$1,267,000, a very great deal of money, more than that of the station.

BASEBALLERS' SUPERSTITIONS ARE SILLY — BUT THEY CARRY THEM THROUGH

NEW YORK. — The New York Yankees and Frank Chance's Cubs are among the teams that carry out various superstitions. These superstitions are often silly, but they are carried out with great seriousness. For example, some players believe that they must wear certain shoes or socks, or that they must eat certain foods. Some players also believe that they must perform certain rituals before a game. These superstitions are often passed down from one player to another, and are a part of the team's culture. While some people may find these superstitions silly, they are a part of the game, and they help to create a sense of unity and team spirit.

YOUR BLOOD is urgently needed... to save Life

Somewhere, on a hospital cot, someone's life is slowly slipping away. That life can be saved. That man, or woman, or little child can be welcomed back with news of joy by friends and loved ones.

You can be the means of keeping this thread of life from breaking. Your blood can help someone to live who otherwise would die. For blood is life. Will you donate your blood to the Canadian Red Cross Blood Transfusion Service?

This great new civilian Blood Transfusion Service has been opened by the Red Cross to provide whole blood and plasma, FREE... not even a Hospital Service charge, to all hospital patients in Canada who need it.

No grasser give can you ever give — for blood is life itself.

Contact your local Red Cross Branch or clinic, and say: "Yes, I will be a donor."

Give blood that others may live

Penns To Tractors

Canada's Imports From United States Felt By Buying Spree

OTTAWA (The Canadian Press)—Canadian imports from the United States in the first quarter of 1932 were valued at \$1,000,000,000, according to figures released by the Department of Finance today.

The total value of Canadian imports from the United States in the first quarter of 1932 was \$1,000,000,000, compared with \$800,000,000 in the same quarter of 1931. This represents an increase of 25 per cent.

The most important items imported from the United States in the first quarter of 1932 were tractors, valued at \$100,000,000, and automobiles, valued at \$80,000,000.

Tractors imported from the United States in the first quarter of 1932 were valued at \$100,000,000, compared with \$80,000,000 in the same quarter of 1931.

Automobiles imported from the United States in the first quarter of 1932 were valued at \$80,000,000, compared with \$60,000,000 in the same quarter of 1931.

The increase in Canadian imports from the United States in the first quarter of 1932 was due to a buying spree by Canadian farmers and manufacturers.

Canadian farmers have been buying tractors and automobiles in large numbers since the beginning of 1931.

Manufacturers have also been buying raw materials and machinery from the United States in large numbers.

The increase in Canadian imports from the United States in the first quarter of 1932 was a reflection of the general economic recovery in the United States.

The Canadian government has been encouraging imports from the United States in order to help the Canadian economy.

Brush Cutter For Tractor

MONTREAL (The Canadian Press)—A new brush cutter for tractors has been developed by the Canadian Brush Cutter Co. of Montreal.

The new brush cutter is designed to be used on tractors and is capable of cutting brush and weeds up to 10 feet high.

The brush cutter is made of heavy-duty steel and is capable of withstanding the most severe conditions of use.

The new brush cutter is a great improvement over the old hand-operated brush cutters.

The Canadian Brush Cutter Co. has been manufacturing brush cutters for many years and has a reputation for producing high-quality equipment.

The new brush cutter is a great addition to the Canadian Brush Cutter Co.'s line of equipment.

The Canadian Brush Cutter Co. is a leading manufacturer of agricultural equipment in Canada.

Real Estate and Insurance

We are entering another year with world food supplies still short. In consequence, farm prices are higher than for the past twenty years.

It would appear to be only good business to protect your investment in time, money and labor by insuring your crop against hail.

I am again representing several of the most reliable Hail Insurance Companies. Please see me when arranging your Hail Insurance.

The Tourist Industry

WITH THE LIFTING of wartime restrictions on the volume of travel, tourist traffic has again become a source of considerable revenue to communities both in the United States and Canada. In 1946, for example, the United States alone brought \$250,000,000 into this country. This was the largest amount of holiday revenue to come here since the late 1930's. In 1939, the year in which the present restrictions were lifted, brought into the country in this amount to \$145,000,000. The present year for tourist trade in Canada was 1945, when the revenue was \$100,000,000, only about one-third of the figure for 1946. It is reasonable to expect that an optimum record for tourist traffic may be made this year, and that facilities for transportation have improved considerably in the past few years.

In view of the amount of revenue which tourist traffic brings to the country, the term "tourist" has been improved. "Highways have been improved" has become a cliché, and the money service industry has become a major factor in the country's economy. Indeed, the proportion of a large and profitable industry. With its many lakes, rivers, forests, and attractive national parks, Canada is an inviting land to the thousands of vacationers who come here each year. But their numbers are steadily increasing. It would seem wise if every effort were made to improve facilities for tourists and to bring to the country the maximum possible income from this source. Tourist development is a very profitable industry. Considerable improvements have been made in highways in the last twenty years, and in some parts of the country highway facilities compare favorably with those to be found anywhere.

Natural Beauty Fully published recently by the Dominion Bureau of Statistics showed that \$125,000,000, or about 10% of The Prairie's \$1,250,000,000 of total income, was spent by visitors to Canada last year. Some 90% of this was spent in the Prairie Provinces. Naturally some parts of Canada, with the greater wealth of large lakes, rivers and forests, attract more visitors than others, but the best part of the country has the most natural parks which have been developed on the frontier, as time goes on, being larger numbers of tourists to visit the country. With these will come increasing revenue to merchants and other businesses particularly by holiday visitors. Good roads, and facilities for accommodation and recreation will prove valuable assets both to visitors from outside of Canada and to the many who come here from the United States. The tourist industry is one which still has great possibilities for development. Canada, and there is no reason why the Prairie Provinces should not benefit as extensively from it as any other part of the country.

Ice Cream War Gives Everybody Stomach Ache

HERE TO STAY
Who said the atomic age is here? The directory of Birmingham, Alabama, lists an atomic barbershop, an atomic cafe, an atomic weld company and an atomic bougie house on a local radio station.

let-fever case when you reach clubhouse. With a cooling oil or you should be able to stay outside in a bathing suit every day of vacation. You can soak up all sunshine you want — and no sunburn. —Dyson Carter in "Woman" August, 1946.

The Thorpdale tree, a mountain ash in Victoria, Australia, is said to have been 373 feet tall.

THEY SAY HE'S A WONDERFUL DANCER --

WOW! THEN WHY ISN'T HE DANCING? THEY'RE BEING SINGING -- ARE AN HOUR?

YOU'RE A TRIBUTE TO LOVERLY PERVERGENCE! SHE FED YOU WITH A BOTTLE WHEN YOUR MAMA DIED!

Even if the western provinces have an average good crop and are able to spare feed grains for the east, the eastern farmer will be up against the problem of transportation which last fall prevented the maximum shipment of feed grains.

WILD CHASE RESULTS IN ONE DEATH, TWO WRECKED CARS—In a brief but wild chase, a stolen car followed by police, killed one person, injured others, crashed into a parked taxi-cab and snipped off a cement telephone pole on Toronto streets. The car, stolen in Burlington, was seen by police in Toronto who gave chase. Of eight occupants of the car, three are being held by police, five disappeared when the car stopped. The stolen car is shown, right, the wrecked cab, (left).

This shorthorn "double" was grand champion at the Junior Beef Club show and sale held recently at Brooks, Alta., and commanded the fat price of 50 cents for each of his 474 pounds. He is being held here by his proud owner, Vedaia Swanson, of Skandia.

TRUCK PLUNGES INTO CREEK—

Daughter Phyllis, age 10, was rescued by mother from crack.

JAP WAR CRIMINALS, ON WAY TO EXECUTION, JEER AT CROWD—Death ride for two Japanese criminals was like carnival to thousands of Chinese who lined Shanghai streets to watch the doomed pair, Heiichi Yamamura, 55, and Jiro Shimoto, 28, ride by in truck, centre, background. Shimoto laughed and jeered at crowd all along the parade route. After the execution, the crowd trampled their bodies.

In France during the Middle Ages the length of a man's shoes indicated his social rank.

BRUSSELS—Premier Paul P. Spaak said that war-time agreements placing uranium ore supplies from the Belgian Congo at the disposal of Britain and the United States still were in effect.

"It was necessary during the war," Spaak told the Belgian Senate, "to assure our allies of material assistance for atomic energy. Agreements are still current. The Government hopes that an agreement for the control of atomic energy will intervene. The Belgian Government will then adapt its legislation on uranium to conform with international organization."

STORY BY T. CARTER DOOD

It was a warm, sunny day in the heart of the city. The sun shined brightly on the streets, and the air was filled with the sound of laughter and the scent of flowers. A young man, named John, was walking down the street, his hands in his pockets, looking up at the sky with a smile.

Teach the Children the
Meaning of the Word
Danger

Too often a young life is snuffed out by drowning; a child is fatally wounded by firearms; a fire set by little hands playing with matches takes life and property. It is most difficult to remove the causes of accidents, but by intelligent instruction children can be taught that "Danger" is a poor paymate.

GLIDER BODY MAKES INTO HOME—Baffled by the housing shortage, a British house-
rent man of Southhampton solved his problem by converting the fuselage of a Heinkel glider into
a three-room house. If successful, a contractor plans to build more of the glider houses like
the one shown here.

AND AFTER THAT, BOWS AND ARROWS — Communist artist Vic Donahue sketched these unofficial conceptions of warships of the future. Here are a guided missile ship, a nuclear submarine, an aircraft carrier, and an "attack-killer".

LITTLE MAN WHO WON'T INJURE, HE SAYS—Meet the little man who isn't there... the man who could run along with a sword thrusting at anybody because, he says, "I don't exist." He is Arnold Garrit Johannes van der Linde, of Switzerland, who baffled the medical staff at the Zurich university clinic in the demonstration of his strange power, shown above. At Top, a student selects the spot to thrust the blade of a rapier-like spear through the member's body. Below, the blade is seen half at one side and half at the other of the member's torso after piercing some of the vital organs of his body. He then ran up and down a flight of steps with the spear in this position. When the blade was withdrawn the member lost only a few drops of blood. "I just don't exist, so I am not vulnerable," he said.

MAIN STREET - SEDGWICK

An Excellent Example

INCOME LEVELS IN THIS COUNTRY have risen steadily in the past few years and most Canadians have had money to spend that year before. This period of prosperity has followed in the wake of the depression of the 1930's and for many people it has been the first time in almost a decade that they could adjust their living standards to an adequate income. This is true of farmers as of other classes of workers. In Western Canada, death was as common as the depression had created an economic disaster which was never to be forgotten by the people here. At that time it was impossible for farmers to meet all their financial obligations and many of them were forced to go deeply into debt.

Figures Given For Farm Debt

In 1937, the mortgage farm debt, including arable and pasture land, was estimated to be \$1,000,000,000. This was a very large debt when compared to the size of the population of the prairie provinces. At that time it was estimated that the amount owed for mortgages and farm debt was \$1,000,000,000. This was a very large debt when compared to the size of the population of the prairie provinces. At that time it was estimated that the amount owed for mortgages and farm debt was \$1,000,000,000.

Good Times May Not Continue

It is considered probable that farmers would pay their accounts to mortgage companies, municipalities and banks before continuing to pay off their mortgages. Although accurate figures are not available, estimates are that the total farm debt for the prairie provinces may be as high as \$1,000,000,000. In some cases increased income is used to reduce the debt.

THIS SHOULDN'T HAPPEN EVEN TO A DROMEDARY — Upsey-Daisy goes one of a group of 20 dromedary camels from the deck of the British motorship Trevider at Brooklyn, N.Y. They arrived from the interior of East Africa consigned to Benjamin Lepow, New York, and will be distributed to 15 zoos throughout the U.S.

Her heart is pounding at terrific speed and rapidly wearing itself out. She had hot cream and cake at her first birthday party, Sept. 30, and her mother, shown with her.

U.S. SCHOLARSHIPS TO STUDY IN U.S.—ON to school in the U.S. are Peter Vangucci, 16, of East Molesey, and Pamela Genduse, 16, of Northam, Exg. Both won scholarships under the U.S. Aid plan and arrived here before sailing from Southampton.

EASY METHOD

Let ammonia help you slick the oven with a minimum of rubbing. Wipe a cloth saturated with ammonia over the walls and bottom of oven. Then put a small dish filled with ammonia in the oven, close the door and let the potent fumes softening-baked-on food and grease overnight.

new fighter aircraft which is being adopted by the Royal Navy has made its first flight. It is a jet-propelled plane capable of speeds of more than 600 miles an hour which has been designed and built by Hawker Aircraft, and is planned for addition to two different versions. One will be a land-based plane while the other will be planned to operate from aircraft carriers. About 1,000

WHOOPIING COUGH AND DIPHTHERIA DANGEROUS

Some public health workers are inclined to believe that the public dramatization of polioemulsitis outbreaks has tended to take attention from facts surrounding certain other diseases—just as deadly as polio, but which, unlike polio, can be prevented. For instance diphtheria and whooping cough, year in and year out, take many more lives than polio each year is preventable. True polio is a dangerous epidemic and killing disease but diphtheria and whooping cough are dangerous killers too. It is tragic that medical science has been unsuccessful in attempts to develop a polio preventive, but it is also tragic that the Canadian public

It is to be hoped that the untiring efforts of medical science to develop a preventive for polio will be successful and that the Canadian people

It is to be sincerely hoped that we soon will have the benefit of a polio preventive, but in the meantime we should make use of the disease preventives now in our possession. This is why the Health League of Canada, the Dominion's leading voluntary health education association, has designated the week of October 5th as Polio Prevention Week.

This annual national observance designed to draw attention to the fact that certain communicable diseases—particularly diphtheria, whooping cough and smallpox—are preventable. It also is a means of making known the fact that federal, provincial and municipal health departments throughout the country are working continuously to eliminate

The tragedy of the public's ignorance or apathy in regard to the available preventives for diphtheria and whooping cough is written in the statistics for 1944 which show close

PENNIES...
That Never Come Back
Every one in a while you hear a man or woman re-
call; just see what I got in the city! I'm I really!
You who buy clothing, things to eat and wear, or
articles for home improvement and comfort, did you
ever stop to think what "end of the rope" you are
pulling when you spend your money out of town?
Bad pennies are these.
They never come back to show proof of the good
for which they were minted, so far as we are concerned,
we people of this World and vicinity.
Also, do you ever stop to think of the extra cost of
the things you buy outside of YOUR TOWN, such as
the express or freight charges or your own personal
transportation fare? Then there's doubtful value,
possible loss or injury to your merchandise in transit,
all things to consider if you're wise.
Your home merchant carries the load for you, and
he should have your support to the last penny spent
for so to what matter.
For those pennies are the pennies that come back
and in innumerable figures. They circulate, create busi-
ness, and wealth, and health to your district.
Remember, it's the pennies that come back that
count!

ABOUT BOWLING

In the matter of a pension system for Redgewick, the Village Council has agreed to pay a pension to the village's bowling team. The pension is \$100 a year, and the money is available if the team wins a championship. The following reply was received:

"Referring to Section VI of the Power report entitled 'Economic Development', the Council has decided that you add 30% to the cost of maintenance of the bowling alley."

ASK FOR COMPENSATION

On motion of T. Baller's of Longsight, the resolution passed a strong demand that the federal government should pay compensation to all owners of course prizes who have suffered through the war. The resolution also demanded that the government should pay compensation to all owners of course prizes who have been in the service during the war.

It was also asked that the federal government pay the handling of the prize money to the owners of the prizes.

The inspired Village members' attention to the local prizes was a very good idea. The village already received a large sum of money from the prizes. The village also received a large sum of money from the prizes. The village also received a large sum of money from the prizes.

Riper Old Age Dominion Survey Shows People Live Longer On The Prairies

OTTAWA—You may not know this, but right this minute you have a better chance of living to a ripe old age than you did 10 years ago. And, if you're a woman, you'll likely live longer than if you were a man. And, if you live in the Canadian prairie, your chances of reaching the long-sought frontier are better than those of Canadian living elsewhere in the land of the maple.
